

## Description of Published Data for Automatic Frequency Restoration Reserves

Caption	Description
aFRR+ Price for AT	15min quantity-weighted average price based on the total amount of positive aFRR as requested by the PICASSO-optimization, irrespective of whether delivered by balancing service providers within Austria or within the PICASSO region or whether netted within PICASSO (netting within IGCC is excluded). In case APG was not connected to PICASSO for parts of a 15min interval, for these parts the sum of positive aFRR as requested within the LFC Area APG will be taken into account,
aFRR- Price for AT	15min quantity-weighted average price based on the total amount of negative aFRR as requested by the PICASSO-optimization, irrespective of whether delivered by balancing service providers within Austria or within the PICASSO region or whether netted within PICASSO (netting within IGCC is excluded). In case APG was not connected to PICASSO for parts of a 15min interval, for these parts the sum of negative aFRR as requested within the LFC Area APG will be taken into account.
IGCC+	Energy imported (avoided activation of positive aFRR) within the International Grid Control Cooperation (IGCC)
IGCC-	Energy supplied (avoided activation of negative aFRR) within the International Grid Control Cooperation (IGCC)
aFRR+ AT for AT	Sum of requested positive aFRR for the LFC Area APG which was delivered by balancing service providers of the LFC Area APG.
aFRR- AT for AT	Sum of negative aFRR as requested for the LFC Area APG which was delivered by balancing service providers of the LFC Area APG.
aFRR+ Coop for AT	Sum of requested positive aFRR for the LFC Area APG which was delivered by balancing service providers of other LFC Areas of the PICASSO region.
aFRR- Coop for AT	Sum of negative aFRR as requested for the LFC Area APG which was delivered by balancing service providers of other LFC Areas of the PICASSO region.
aFRR+ AT for Coop	Sum of requested positive aFRR for LFC Areas of the PICASSO region which was delivered by balancing service providers in Austria
aFRR- AT for Coop	Sum of negative aFRR as requested for LFC Areas of the PICASSO region which was delivered by balancing service providers in Austria
aFRR+ in AT	Sum of activated positive aFRR (actual value) which was delivered by balancing service providers in Austria
aFRR- in AT	Sum of activated negative aFRR (actual value) which was delivered by balancing service providers in Austria
aFRR+ Price in AT	15 min quantity-weighted average price based on the total amount of activation of positive aFRR as delivered by balancing service providers in Austria

aFRR- Price in AT	15 min quantity-weighted average price based on the total amount of activation of negative aFRR which was delivered by balancing service providers in Austria
Allocated cross-zonal capacity AT>DE	Reserved transfer capacity for the export of aFRR capacity from Austria to Germany
Allocated cross-zonal capacity DE>AT	Reserved transfer capacity for the import of aFRR capacity from Germany to Austria
PICASSO Cooperationstatus	Information that indicates if the connection to the PICASSO cooperation has been active (Yes/No)
IGCC Cooperationstatus	Information that indicates if the connection to the IGCC cooperation has been active (Yes/No)
Elastic Demand Status	Information that indicates if the elastic demand was active (Yes/No)
